

March 16, 2021

To our valued Petro-Canada Lubricants distributors:

Based on market changes, effective April 12, 2021, there will be a price increase of 55 cents per gallon (cpg) or 8 cents per pound (cpp) on book prices and area-wide pricing (AWP's) for Petro-Canada Lubricants finished products, Purity FG WO White Mineral Oils and Paraflex HT Process Oils. Some specific exclusions may apply and if applicable, will be communicated to you by your District Sales Manager.

In order to support the ongoing reliability of our supply chain for distributors and customers, we ask that you order in volumes consistent with historical purchase levels and we reserve the right to limit, defer or cancel orders that are in excess of these levels.

If you have any questions, please contact your District Sales Manager.

Thank you for your business and continued trust in the Petro-Canada Lubricants brand.

Asif A. Aleem
Sales Director – U.S., Petro-Canada Lubricants
HollyFrontier Lubricants & Specialties
